

AI-POWERED CAREER ROADMAP

Student > Web Dev + Python > Get a Job/Internship > 3 Months

Generated using Chain-of-Thought Reasoning

CURRENT POSITION

- Role: Student
- Skills: Web Development, Python/Data
- Experience: Academic + Projects

Skill Area	Current Level	Required Level	Gap	Priority
Python	Intermediate	Intermediate+	Add pandas/NumPy/APIs	High
Web Dev (HTML/CSS/JS)	Intermediate	Portfolio-ready	Build 2 live projects	High
Git & GitHub	Basic	Proficient	Regular commits + README	High
Data Analysis	Basic	Intermediate	Matplotlib, SQL basics	Medium
DSA / Problem Solving	Low	Basics	LeetCode Easy/Medium	Medium
Communication	Unknown	Good	Resume + LinkedIn polish	Low

TARGET GOAL

- Get a Dev/Data Job or Internship
- Build a portfolio of 3 real projects
- LinkedIn profile + GitHub active

RECOMMENDED LEARNING PLAN

Month 1 – Strengthen Foundations

- › Python: APIs, pandas, NumPy
- › JS: DOM, Fetch, async/await
- › Git: branches, PRs, README

Month 2 – Build & Apply

- › CSS Frameworks (Tailwind/Bootstrap)
- › Flask/FastAPI for backend
- › SQL basics + data projects

Month 3 – Polish & Apply

- › DSA: 30 LeetCode Easy
- › Deploy projects (Vercel/Render)
- › Resume + Interview Prep

SUGGESTED PROJECTS

Portfolio Website

Responsive, deployed on Vercel

Data Dashboard

Python + Streamlit, real dataset

Full-Stack App

Flask + SQLite + JS frontend

NETWORKING STRATEGY

- Optimize LinkedIn headline + About
- Post 2x/week: projects & learnings
- GitHub: daily commits, quality READMEs
- Follow 20 hiring managers in tech
- Join 3 Discord/Slack dev communities
- Apply to 5 roles/internships per week
- Cold DM: 'I built X, would love feedback'

MONTHLY MILESTONES

Month 1

Finish 2 courses, push 10 commits/week

Month 2

Deploy 2 projects, start applying

Month 3

3 live projects, 10+ applications sent

Goal

IMMEDIATE NEXT ACTIONS (This Week)

1. Set up GitHub profile + pin your best repo
2. Deploy a starter portfolio site on Vercel (free)
3. Pick 1 Python project idea and start building today
4. Update LinkedIn headline: 'CS Student | Web Dev + Python | Open to Internship'
5. Join 1 Discord community (Reactiflux / Python Discord)
